

Udeet Mittal

+91 9921215750 | udeet1575@gmail.com | 2+ YOE QA Engineer | [udeet.in](#) | [LinkedIn](#) | [Github](#)

SKILLS

Languages: Python, Typescript, C#, Java, SQL

Frameworks & Tools: Selenium, Cypress, Playwright, Cucumber, Rest Assured, JUnit, Maven, Jenkins, Github Actions, Postman, Swagger, TestRail, Jira, Azure Devops, Git, Bitbucket

Cloud & Databases: AWS (EC2, S3), PostgreSQL, MySQL, MS SQL Server

Core Concepts: SDLC/STLC, Agile/Scrum, Automation, Manual, Functional, Regression, Smoke Testing, Quality Assurance, TDD/BDD, RESTful APIs, Data Structures & Algorithms (DSA), OOP, Agentic AI workflows, LLM, MCP

EXPERIENCE

QA Engineer

July 2026 – Current

iMocha

Pune, India

- Developed an AI-assisted test design workflow (Claude, Notion MCP, Figma MCP) that generates test case documents and PM clarification questions from user stories and designs, reducing test case creation time by 50% and enabling team-wide review during grooming.
- Authored test case documents for 20+ features across the assessment platform, AI interviews (Tara), live coding interviews, and project-based assessments.
- Executed regression and ad hoc testing across Chrome, Safari, Windows, macOS, Android, and iOS, validating 30+ critical user flows per release.
- Built Playwright (Python) automation scripts covering 50+ regression scenarios, reducing regression execution time by 33% per release.

Junior QA Engineer

September 2025 – June 2026

Cornerstone OnDemand

Pune, India

- Built and enhanced automation frameworks using Selenium Webdriver (Java + Cucumber), Playwright (Typescript), Cypress (TypeScript), and Rest Assured (API automation), improving regression coverage and release confidence.
- Identified and logged 50+ critical/high severity defects impacting high-value enterprise clients.

Software QA Engineer

February 2025 – June 2025

Aaj Ka Anand Publications

Pune, India

- Contract role involving development of automated test suites using Selenium with Python and Java, reducing manual testing time by 60% and accelerating deployment cycles for digital publishing workflows.
- Implemented dynamic Python scripts to automate over 80% of backend administrative workflows, significantly improving operational efficiency and reducing manual effort.

Associate Software Engineer

July 2024 – January 2025

Beghou Consulting

Pune, India

- Optimized large-scale data warehousing processes by implementing modular Python, SQL, and SAS code, achieving a 20% reduction in processing time for major U.S. pharmaceutical clients.
- Introduced automated workflows for real-time alerting and robust error handling, reducing turnaround time for debugging by 30%, enabling faster, data-driven decision-making through Power BI and Excel integration.

EDUCATION

Manipal Institute of Technology

Bachelor of Technology - Computer Science; CGPA: 8.31/10

Karnataka, India

2020 – 2024

CERTIFICATIONS

ISTQB Certified Tester Foundation Level (CTFL) v4.0

International Software Testing Qualifications Board

AWS Certified Cloud Practitioner

Amazon Web Services
